

# DAVID HONG

Full Back/Midfield

My name is David Hong and I am in the class of 2027. I am from Yorktown, VA. I play the full back/midfield and I would consider my intelligence to be one of my best assets. When playing full back, I am able to build-up and have great spatial awareness. When playing middle field, I am confident with the ball, able to break lines, and make the final pass. I have been described by my coaches and teammates as a leader who is technical and skillful. I play with passion and a desire to win and outwork my opponent. I believe that my technical skills, tactics, and my physique separate me from many of my peers.

My overall goal is to play on a college team. I aspire to play for a program that will make me work hard and push me as a better player. With dreams of playing in college, I want to be prepared to excel at the next level. I would improve my weaknesses and watch film to find positional weaknesses.
