- Undergraduate Research Conference Award of Merit
- "A. Conger Goodyear" Award for Excellence in Graphic Design

BIO

Hello! My name is Savannah Taylor, and I am from Richmond, Virginia. Since I was 4 years old I have been playing soccer, and it was always my biggest goal to become a professional player. While I'm very proud of myself for achieving this lifelong dream, I'm not completely satisfied. My aspirations are to continue advancing in my career until I reach the top.

It is not my goal to be comfortable; rather the opposite. I want to be constantly pushed out of my comfort zone, so that I can grow as a player, and a person. I separate myself from other players because of my intensity, attention to detail, professionalism, discipline, athleticism, confidence, passion, and grit. I am a highly driven individual, motivated by an innate and extreme desire to be the best at everything I do. I give everything I have on the pitch, and I lead and inspire my teammates to do the same.

I am always putting in work to refine my skills, increase my soccer IQ, and reach my maximum athletic potential. I remind myself that I am not just a player, but a student of the game who is constantly obsessed with being the best version of "me." On and off the field, I am a natural leader. I view myself as a game-changer because I bring a strong physical and verbal presence to the pitch that cannot go unnoticed. The motto I live my life by is "go hard, then go harder." I want to be a part of a team that will take my game to the next level, as well as grant me the freedom to showcase my talents.
